**Module 1:** Introduction

**Module 2:** Legal Issues

**Module 3:** File Systems

**Module 4:** Image Acquisition & Analysis

**Module 5:** Memory Acquisition and Analysis

**Module 6:** Data Recovery

**Module 7:** Log Analysis

**Module 8:** Mobile Forensics

**Module 9:** Malware Analysis

**Module 10:** Reporting

**Time:** 9am to 5pm

**Duration:** 4 days

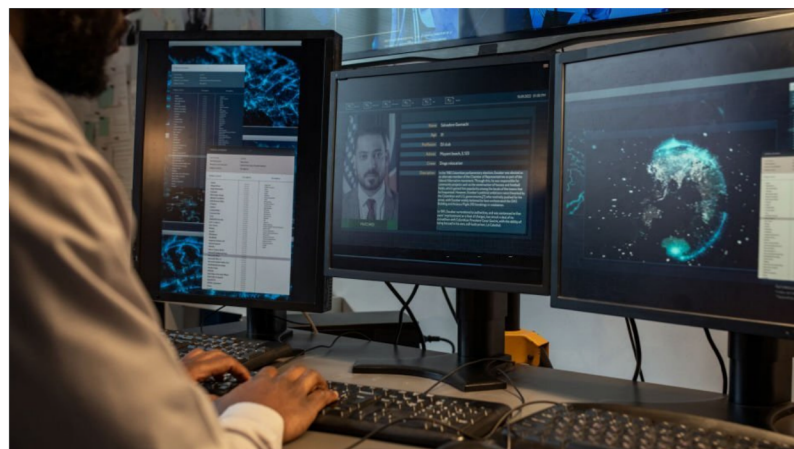

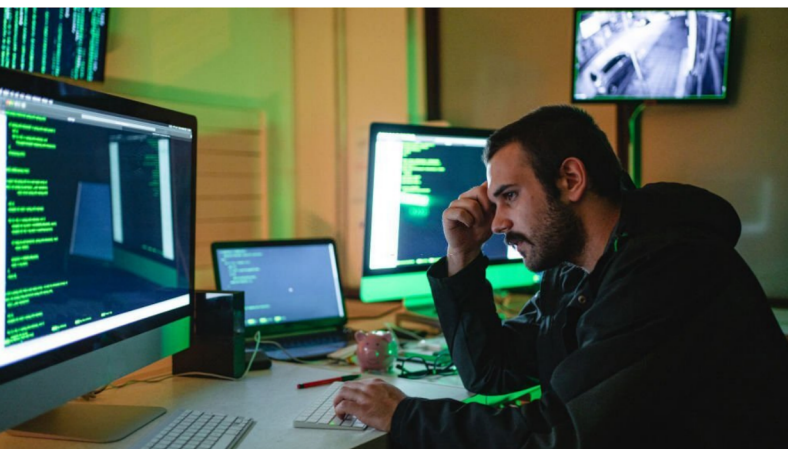

**Venue:** Phileo Damansara 1

- ✓ **Exam**
- ✓ **Certificate of Attendance**
- ✓ **Certificate of Achievement**

### Who Should Attend

- System/Network Administrator
- Digital Forensic Analyst
- Law Enforcement Officer
- IT Professionals
- Information Security Professionals
- Anyone who require effective Digital Forensic investigation skills.

- ✓ Trained by **award-winning Cybersecurity training provider** with Top Rated Digital Forensic Expert.
- ✓ Learn the methodology of conducting a successful **digital forensic investigation** in a proper manner.
- ✓ Learn various tactics and techniques used on both **Windows** and **Linux** platforms.
- ✓ Experience **customized forensic scenario** that are applicable to the real world.
